# **A PROJECT REPORT ON ONLINE Job Portal WEBSITE**

Submitted by:

Mihir Prajapati (22032211205)

Karan Parmar (22032211123)

Guided by:

**Prof.Falguni Suthar**

Submitted To:

Acharya Motibhai Patel Institute Of Computer Studies Ganpat  
University, Kherva 384012.

## CERTIFICATE

TO WHOM SO EVER IT MAY CONCERN

This is to certify that the following students of **BCA Semester V** have completed their project work title “**ONLINE Job Portal** ” satisfactorily fulfill the requirement for subject **U35A5SDP-I** in BCA Semester V in the year 2023-2024.

No	Name	Enrollment No
1.	Mihir Prajapati	22032211205
2.	Karan Parmar	22032211123

**Internal Guide**

Prof. Falguni Suthar

**Program  
ordinator**

Dr. Savan Patel

**Co- Principal**

Dr. Nirbhay Chaubey

## **Acknowledgement**

An acknowledgment should be an expression of Genuine gratitude and not a set of platitudes. Here with we pen down the thank fullness. We own to all those who made this endeavor ours successful. We do not want to miss the opportunity to thanks all those who had helped us either directly or indirectly, through their constant and guidance, which helped, put in our best.

We are thankful to **Prof. Falguni Suthar** for help in our project as a project coordinator and project guide.

Our project at AMPICS. We are thankful to AMPICS for providing us an opportunity to work on their premises, guidance & cooperation during the project.

All other staff member of AMPICS institute of Computer Studies, kherva. Who support & guide us greatly during the tenure of the project and for this us sincere thanks to all of them. At last but not least we must say that the quality of the guidance, co-operation and inspiration provided by the member of AMPICS, kherva. We can't be expressed in words.

## **Preface**

Welcome to project report developed by **Mihir Prajapati** and **Karan Parmar, Group No 04** undertaken at AMPICS located at **Ganpat University, Kherva.**

The project report has been made to make ease of understanding of the website developed for full time project fulfillment in BCA SEM-V. Where project report contains the documentation of project and project presentation.

Here in word document the documentation has been developed including the following things. Intro-page, college certificate (for made project), index, project profile, existing system, need for new system, minimum requirement, system flow-chart, DFD up to first level, entity relationship diagram.

The other thing is process description that includes brief description of process. Process algorithm, Admin Side Input Design, Customer Side Input Design, and at the last Post Implementation Review, Future Enhancement, and Bibliography that gives the reference books and references sites.

# Project Profile

Project Title	Job Portal web Application
Objective	For Provide Job portal To Public
Front End Tool	ReactJs,DaisyUi,TailwindCSS
Back End Tool	NodeJS
Editor	Visual Studio Code
Operating System	Windows 10, 11, 12
Application Type	Website
Developed For	Acharya Moti Bhai Patel Institute of Computer Studies
Team Member	Mihir Prajapati(22032211205) Karan Parmar(22032211123)
Project Guide	Prof. Falguni Suthar (Internal Guide)
Group No	04

## Existing System

- ☐ Job details are stored in paper work
- ☐ Maintenance is a huge problem
- ☐ Updating , Changes in details is a big task
- ☐ **Limited Accessibility** : without an online presence, applicant can
- ☐ only access the rental service by physically visiting the rental location

## Need for new System

- ❑ Maintenance is easy and performance is good.
- ❑ Mainly the system has automated the transportation process. As data is maintained electronically , it's easy for a person to update the details, Which has overcome the tedious updating in previous system.
- ❑ **Customer Convenience** : In an increasingly digital world
- ❑ **24/7 Availability** : our online platform can operate 24/7 , allowing applicant to apply jobs at any time day or night

# H/W & S/W Requirement(recommended)

## ➤ Server side:

### HARDWARE:

- Processor : Intel core i3 OR above
- Ram : 4GB or above
- Hard – Disk : 256GB or above

### SOFTWARE:

- Database System : MongoDB
- Operating System : Windows 7 or above

## ➤ Client side:

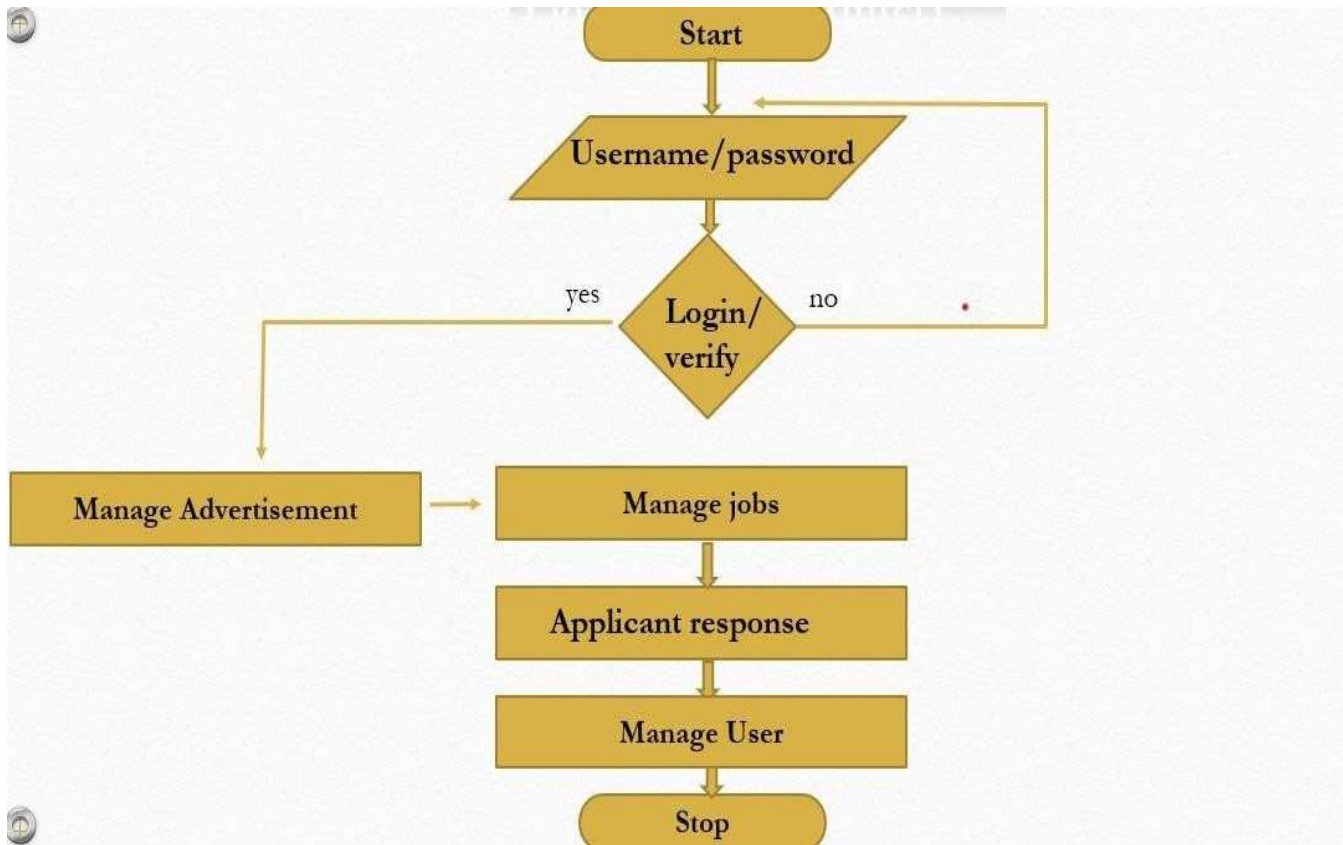

### HARDWARE:

- Processor : Intel core i3 or above
- Ram : 2GB or above
- Hard-Disk : 256GB or above

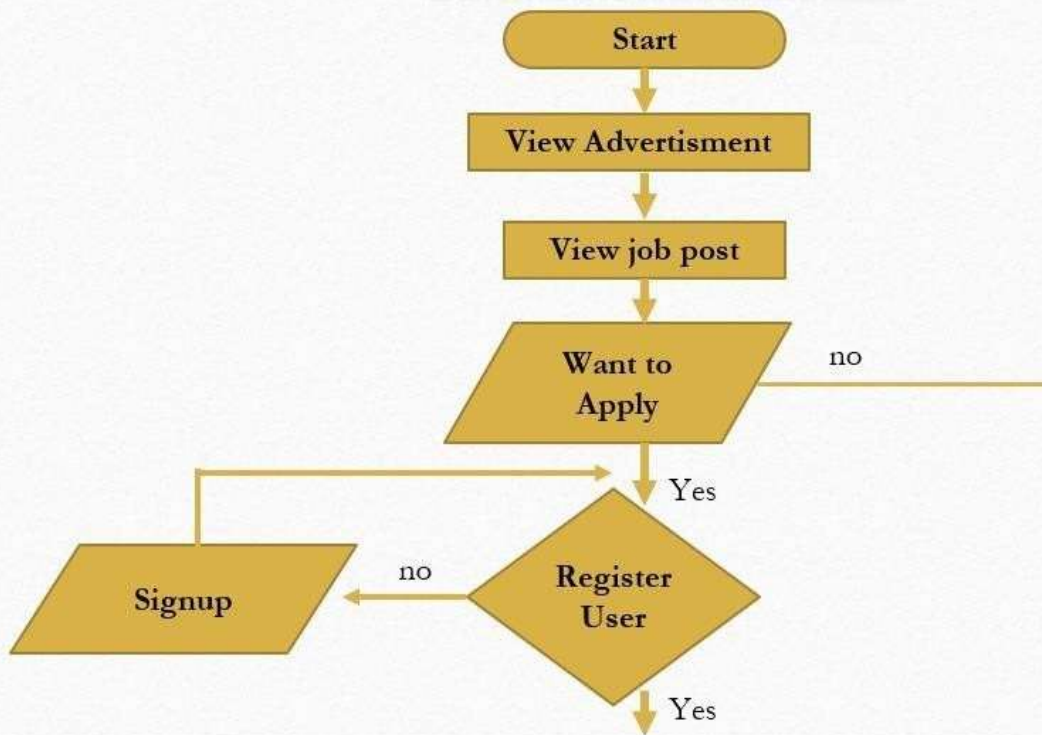

### SOFTWARE:

- Browser : chrome or Any browser
- Operating System : windows or any OS

# Testing

We have use following method for testing the system.

## **Specification Testing :-**

- The specification testing is what program does in some various condition is.
- we check this system to give wrong username ,password, wrong data then system display message for input correct data.

## **Code Testing:-**

- The code testing is examining the logic of program.
- we have testing all path of program, path means to specific combination of condition that handle by program.

## **Unit Testing:-**

- Unit testing is focused on verifying small portion of functionality. Unit testing is important part where each module and process of application is to be test by possible input sets and desired output.
- we have check different type of modules like admin module, Visitor module etc..

## **Future Enhancement**

Some are the expansion which we have thought of are:

- Try for to make system more user friendly.
- Improve search Facility.
- make it like linkedin platform where user can see the compnay throw search and visite any user profile like linkedin.
